Copy 2 of 4  
27 December 1957

Dear Bob:

Reference is made to your CMCC Doc. No. 151X5.878 concerning the use of factory spare parts procured under Contract A-101.

This has been discussed at some length with interested parties. While we have no objection to the maintenance of a central stock pile of spares for use of both customers, appropriate controls are necessary to properly allocate charges. You will note that Customer No. 2 has not funded for any spares for System I, accordingly, spare parts should not be used for repair of their System I's. In other words if no funds have been allocated by Customer No. 2 for spares for a particular system, Customer No. 1 spares should not be used.

When funds for spare parts are exhausted for a particular customer, you should, of course, advise us as soon as possible.

Dan
